Code Examples for RB129 Assessment Worksheet

– Write a code snippet that exemplifies each concept –

Classes and Objects

Objects

Classes

Object Instantiation

Instance Variables

Instance Methods

Class Variables

Class Methods

Instance Methods vs Class Methods

Setter and Getter Methods

Using attr_*

Method Access Control

Public

Private

Protected

Inheritance

Class Inheritance

Interface Inheritance

Method Lookup Path

Object Methods

Variable Scope with Inheritance

Polymorphism & Encapsulation

Polymorphism

Polymorphism Through Inheritance

Polymorphism Through Duck Typing

Encapsulation

Modules

Mixin Modules

Namespacing

Module Methods

Self

Inside Instance Methods

Inside Class Methods

Inside Class Definitions

Inside Mixin Modules

Outside Any Class

Fake Operators and Equality

Equivalence

==

equal? and object_id

===

eql?

Fake Operators

Comparison Methods

Right and Left Shift

Plus

Element Setters and Getters

Collaborator Objects
